

APPLICATION TO REGISTER FOR THE WORKSHOP
AUTHENTICATION FOR THE FUTURE INTERNET OF THINGS

Event Location and Address: Deakin University CBD campus, Level 12 Tower 2 at 727 Collins Street, Melbourne, 3000.

Host Organisation: Deakin University, Melbourne, Australia

Start and End Dates: Wednesday to Friday Nov 28 - 30, 2018.

Website: <http://www.authiot2018.conferences.academy/>

The workshop is free, limited to 50 participants and is open only by invitation. Please complete and submit this form if you wish to attend. If you are within the target number, an invitation will be sent to you.

No papers are solicited. Instead, each participant will join a work-stream with a designated leader and the stream will continue beyond the workshop to develop research papers and special editions for journals.

All participants are expected to join a work-stream and attend work-stream meetings during the 3 days of the event. The days will also be interspersed with talks and demonstrations.

NAME in FULL (Family name in capitals): _____

Organization: _____

Email address: _____

Special dietary requirements (for catering purposes):

Please mark exactly one of the following work-streams. I choose to participate in:

- Mathematical problems related to cryptographic authentication in low-resource environments
- Cryptographic algorithms for authenticated encryption with associated data
- Secure implementation of authenticated encryption algorithms with associated data
- Legal and regulatory aspects of authentication in the IoT
- Introduction to Cryptography (for attendees with little formal knowledge of the subject; PhD students should check this box, but read the additional requirements on the website.)

Please complete and forward this form by email and before Wednesday August 15 to Judy Chow (jchow@deakin.edu.au). A reply will be forthcoming in the 2 weeks following this date.

For further information, contact Lynn Batten: lynn.batten@deakin.edu.au.
